- 3. **REDLITHIUM™-ION BATTERY PACKS**

SEE PAGES 16-17

Dear MILWAUKEE® Cordless Revolutionaries,

We at MILWAUKEE® realised a dozen years ago that we cannot see ourselves as a traditional corded power tool company. We are an industry-leading technology company that is hyper-focused on disruptive innovation to completely redefine your productivity on the jobsite. MILWAUKEE®'s biggest bet has been and will continue to be on cordless Lithium-ion technologies.

Our reward is your investment into M12™ and M18™, two unique yet complementary battery systems that have changed the game on jobsites. The demand for M12™ portable productivity has never been about brute force; instead this compact system allows you to complete tasks smarter, more safely and with lighter tools. We do it by motorizing strenuous manual work like with our range of M12™ ratchets, including the brand new, first battery powered and first M12™

ONE-KEY™ enabled 3/8" and 1/2" digital torque wrenches to deliver 13 to 203Nm of torque range and accuracy within +/-2% in torque-critical applications. Or the first cordless right angle die grinder that delivers the size and performance professional service mechanics demand from air-tools, featuring a 4-Mode RPM speed control and the mobility to fit into the tightest spaces.

In 2020 MILWAUKEE® has a range of 80+ M12™ solutions, the largest subcompact 12V system in the world. In 2020 we are once again elevating user expectations of 18V cordless technology capabilities into brand new areas. Try the first 18V FUEL™ 230mm Cut Off Saw with ONE-KEY™ that has the power to cut reinforced concrete plus other metal and masonry materials and that at half of the weight and without the user issues associated with petrol saws. Truly unwilling to settle for sub-pneumatic performance, MILWAUKEE®'s first cordless M18 FUEL™ 30 Framing Nailer has the power to sink 50-90mm nails in engineered lumber at a fire rate of up to 3 nails per second with no gas cartridges necessary. Finish the job clean and precise with the new M18 FUEL™ Trim Router to do 115m of 9.5mm round-overs in oak at 10,000 to 31,000 rpms variable speed and plunges up to 50mm deep.

MILWAUKEE® continues to innovate and optimise the original SHOCKWAVE™ Impact Duty driver bit line. In the Spring of 2020 the upgraded line is engineered to extend bit life with a Custom ALLOY76™ Steel and will feature a new WEAR GUARD TIP™ to protect the fit over the life of the bit. An optimized SHOCK ZONE™ also absorbs peak torque and prevents breaking. Through disruptive new engineering methods such as proprietary materials, progressive heat treatments and advanced geometry, MILWAUKEE® continues to focus on driving accessory performance forward and providing you with the best solution for the application at hand.

This year we also introduce a range of new tape measures with market-leading features, enhanced durability and best-in-class standout lengths meaning these tapes can be unsupported up to 4m for extended reach and efficient measuring. For every MILWAUKEE® tape we've worked with users to understand their frustrations and maintained our focus on incorporating game-changing innovations.

The new REDSTICK™ Digital Levels with PINPOINT™ Measurement Technology is the world's first rechargeable digital level, featuring a dynamic full colour display and a proprietary calibration process to provide the best user experience and highest accuracy on the market.

Finally, in 2020 you will see MILWAUKEE® making a major leap into a new space that is radically different to our current platforms. It is the output of years of tireless research and development of new ground-breaking technologies. MX FUEL™ is here! The MX FUEL™ Equipment System is the first cordless light equipment

Oliver Lerch
Vice President – Product Management Milwaukee®
PAGE 4

system to truly revolutionise the light equipment market by delivering the performance, run-time, and durability demanded by the trades without the associated health and safety hazards and daily user frustrations. Each of the initial MX FUEL™ products go beyond the limitations of gasoline and power cords and operate off a system-wide compatible battery system. Each solves the most prevalent pain points that have historically caused difficulties for operators, and each of the first 5 MX FUEL™ products are the first of their kind to be cordless.

ENGINEERED FOR THE MOST DEMANDING TRADES IN THE WORLD

For professional users, productivity and safety are the keys to success. The ability to find solutions that will keep up with the breadth and depth of their work is imperative. The MILWAUKEE® cordless MX FUEL™, M18™, and M12™ systems complement each other to provide the right blend of power, performance and run time for the job at hand.

MX FUEL™ revolutionises the light equipment market by delivering the performance, run time, and durability demanded by the trades without the hazards associated with emissions, noise, vibration, and the frustrations of petrol maintenance.

ZERO EMISSIONS

MX FUEL™ not only provides all the power of corded and petrol-powered light equipment, but also produces ZERO EMISSIONS. With the elimination of fumes and emissions with this new platform, this allows the user to improve their carbon footprint, as well as improving health and

safety, as harmful fumes, noise and vibrations associated with the running of this light equipment are eliminated. As a result, this increases productivity as this allows users to work indoors, in trenches, in tunnels or even in mines, without any petrol headaches.

REDLITHIUM™-ION BATTERY PACKS AND CHARGERS

WORLD LEADER IN LITHIUM-ION BATTERY INNOVATION

SUPERIOR PACK CONSTRUCTION

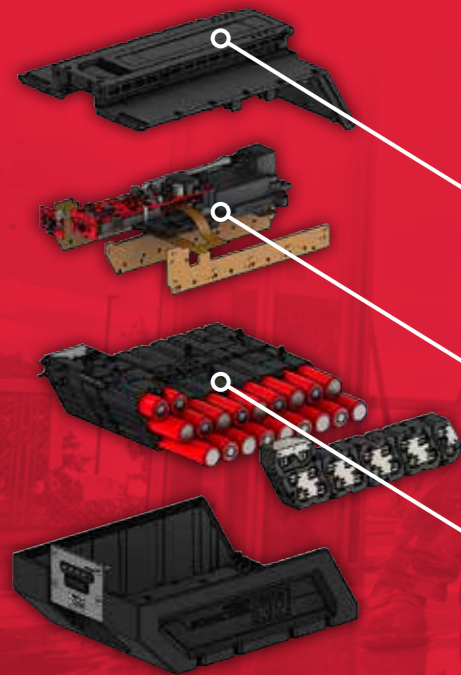

MX FUEL™ REDLITHIUM™ batteries utilise unique & patented designs to protect against drops, vibration, water, and extreme temperatures. This significantly improves durability in the most demanding equipment applications.

ADVANCED ELECTRONICS

REDLINK™ intelligence provides industry-leading communication between the battery, equipment and chargers ensuring optimum equipment performance compatibility, and battery life.

WORLD LEADING CELL TECHNOLOGY

MX FUEL™ REDLITHIUM™ batteries leverage the best-performing and highest-quality lithium-ion technology, developed through deep partnerships with world leaders in cell design. MILWAUKEE® ensures optimum performance and life for the most demanding equipment applications through rigorous in-house testing in Milwaukee Tool's own world-class battery laboratory.

MX FUEL 350 MM CUT-OFF SAW

**FULL
350 MM
CUT CAPACITY**

**FASTER CUTS
FROM START
TO FINISH**

**NO PETROL
HEADACHES**

FEATURES:

- The world's first 350 mm battery powered cut-off saw to deliver the power to cut reinforced concrete with a full 350 mm blade capacity
- Faster cuts, start to finish: 3 second push button start up eliminates the need to mix petrol and oil, and avoids petrol engine maintenance
- No petrol headaches: Can be used indoors due to zero fume emissions
- Petrol-equivalent performance with a maximum no-load speed of 5350 rpm and a full 125 mm depth of cut
- Keyless adjustable blade guard & on-board water line for wet cutting which is compatible with the M18™ SWITCH TANK™ interchangeable sprayer and water supply system

INCLUDES:

COMPATIBLE WITH:

MX FUEL 25 KG CLASS 28 MM HEX DEMOLITION HAMMER

FEATURES:

- Heavy Duty hammer provides 64 Joules of impact energy for toughest demolition applications
- Floating body anti-vibration technologies allows the user to work all day without reaching dangerous exposure levels
- Low 5.17 m/s² vibration allows for over 7 hrs (HAVS) non-stop productivity
- Fast material removal at 1300 BPM
- AC-equivalent tool life and service friendly with an integrated service indicator light alerting the user every 40 hours to add grease
- ONE-KEY™ tool tracking & security

HARD HITTING WITH LOW VIBRATION

HASSLE FREE NO CORDS OR PETROL

MX FUEL TOWER LIGHT

FEATURES:

- TRUEVIEW™ high definition light output with up to 27,000 Lumens in AC (with endless run time) and up to 20,000 Lumens in DC mode (with 3 hr run time) for both task and area lighting
- Has the ability to manoeuvre the light heads in multiple orientations
- High mobility with two big all-terrain wheels
- Due to the integrated motorised mast, the tower light is capable to be set up in less than 10 sec. The mast is extendable up to 3.10 meter and can withstand up to 55 km/h of wind
- Integrated ONE-KEY™ application for customise, track, and manage from your mobile device
- The built-in MX FUEL™ charger gives you the freedom to charge any MX FUEL™ battery in the AC mode
- Dual power source, powered by either MX FUEL™ battery or 110 v/240 v hardwired cord

MX FUEL DIAMOND CORE DRILL

FEATURES:

- 2 speed gearing for a wide range of applications, with laser etched speed and capacity markings into the metal body
- Speed 1: up to 75 mm diameter wet & dry coring at 1600 rpm
- Speed 2: 76 to 152 mm diameter wet & dry coring 800 rpm
- Patented AUTOSTOP™ clutch provides best in class protection, preventing over rotating if core binds
- On-board level sensor guides the user to achieve a straight and accurate finish
- On-board pressure gauge allows user to optimise drilling speed
- On-board battery gauge allows the user to monitor battery capacity during entire drilling process
- Integrated water line for wet coring that is compatible with the M18™ SWITCH TANK™ interchangeable sprayer and water supply system
- 1 1/4" UNC + 1/2" G core fitting to fit most common cores, with friction plate design allowing for easy core changes
- ONE-KEY™ tool tracking & security

INCLUDES:

CORE WITH MORE CONFIDENCE

CORE UP TO 152 MM HOLES

HIGH PRODUCTIVITY DUE TO LOWER SET UP TIME

NEW

MXF DR255TV
ART.# 4933472247

MX FUEL PREMIUM DIAMOND CORE DRILL STAND

- For drilling holes up to Ø 250 mm
- Integrated vacuum base allows for vacuum or traditional anchoring of stand
- Universal 60 mm quick connect motor bracket
- Concrete drop anchor fixing set (4932399731) included

INCLUDES:

MX FUEL THIN KERF WET DIAMOND DRILLING CORES

MX FUEL LARGE SEWER DRUM MACHINE WITH POWER TREDZ™

FEATURES:

- Integrated POWER TREDZ™ assists one-person usage, to move the sewer machine in and out of the service van, up and down stairs
- Fully enclosed drum for best protection and mess containment
- Power to clear roots at 60 m
- Electronic non-slip foot pedal combined with an integrated drum brake electronically slows the drum very quickly for maximum user control and safety
- Drum capacity of 30 m x 16 mm or 30 m x 20 mm cable
- ONE-KEY™ tool tracking & security
- Supplied with 1 x 7.6 m and 1 x 15.2 m inner core cable (20 mm), 1 x 9 pc head attachment kit

INCLUDES:

POWER TREDZ™ LIFT ASSIST

M18 FUEL TRIM ROUTER

AVAILABLE JANUARY

FEATURES:

- POWERSTATE™ brushless motor delivers the power of AC trim routers, max. 31,000 rpm for powerful, smooth cutting
- Variable speed dial allows users to adjust the speed between 10,000 and 31,000 RPM to choose the best control for the application at hand
- All day run time on a single charge of an M18™ 5.0 Ah battery (up to 115 m)
- Innovative height adjustment system incorporating a 0.4 mm micro adjustment
- Active brake stops the router bit quickly
- Included plunge base features 3 stop pins for multiple pass mortising
- Dual LED lights to illuminate the work surface
- Compatible with the dust collection shroud (DEK26)

1000+ ACCESSORY AND HAND TOOL SOLUTIONS

WHAT THE PROS SAY

PEBLEY BEACH - HYUNDAI

“Cordless against corded, it’s very much like Wi-Fi against plug-in networks, everyone’s going Wi-Fi nowadays, likewise with portable tools they have to be cordless. If you think about the cables running around the workshops and all the health and safety issues that brings, it’s just critical we don’t have that anymore. You can get into tight spots, you are not dragging an air line behind you and they’re not that heavy so it’s a bit easier on the wrist and arm when you’re trying to work at heights.”

Dominic Threlfall - Pebley Beach Hyundai

AUTOMOTIVE

M18 FAP

VIRGIN ATLANTIC ENGINEERING

“Virgin Atlantic Engineering love the Milwaukee M18 TAL-0 Task Area work light. It’s no fun working in a dark main landing gear bay or an APU bay with extension leads tripping you up, this light has proved to be perfect for any task our engineers have carried out on our fleet of Boeing and Airbus aircraft.

The versatile light that has never let us down. Build quality is first class, reliable and very robust, our engineers have very high standards but they’ve been really impressed with this work light.”

Jeff Morrison - Virgin Atlantic Engineering

AEROSPACE

M18 TAL

WATCH OUR TRANSPORT VIDEOS ON YOUTUBE: Milwaukee Tool EU

ONE TRANSPORT CHOICE

DAF - FORD AND SLATER

“Historically technicians have always used pneumatic power tools, they have definitely moved away from that to battery powered tools. We don’t have to drape air lines and cables across workshop floors. There are less trip hazards so it makes it a lot safer environment within the workshop.”

Justin Hall - Ford and Slater

M12 UHL

SONIC RAIL SERVICES

“Using the MILWAUKEE® M18™ platform has been a great advantage, as it means having the versatility of having multiple tools along with their batteries to hand when doing a task on site. Milwaukee’s M18™ GG grease gun, great bit of kit – no more air locks or cartridges flying out when reloading the gun! The adjustment that allows you to select the number of pumps required is a game changer, no more guessing or overfilling of grease.”

Attie VanBelkum - Sonic Rail Services

RAIL

M18 ONEFHWF1

BABCOCK

“Over the years we have had tools from all the major providers but Milwaukee tools have proven to be the best in filling our demand, both in versatility and durability. MILWAUKEE® offer a wide range of hand tools. Power tools and equipment, when it comes to cordless tools it is in a league of its own. We mainly use the M18 FUEL™ range of tools on site.”

James Marvin - Babcock

NAUTICAL

M18 CAG125XPDB

MULTIHOG

“Our increasing workforce needed the tools required to produce the quality product our customers demanded and deserved. The highest recommendation of all is that of our engineers. One tool in particular, the ½” impact wrench was very impressive, easily completing tasks the competition was struggling with.”

Niall Donnelly - Multihog

AGRICULTURAL

M18 ONEFHWF12

BMW MOTORRAD WORLDSBK TEAM

“We originally used a power cord or air line which was clumsy and heavy. We started using Milwaukee tools in 2015, the big gun is a lot smoother and doesn’t rattle as much as the old air guns. When we’re in a race situation flag to flag in the pits the race never gets stopped so when the bike comes in you have to get the wheels changed as quick as possible. The Milwaukee tools make this a lot easier to do.”

Ian Campbell - BMW MOTORRAD WORLDSBK TEAM

THE CHALLENGES SOLVED BY THE MILWAUKEE® TRANSPORT RANGE

To learn more visit: milwauketooll.co.uk/trades/automotive

A GUIDE TO MILWAUKEE® TECHNOLOGY

Through years of innovation the MILWAUKEE® range has expanded to push the boundaries of cordless battery power to the limit.

Since cutting the cord in 2008 brushed motors have evolved into HIGH OUTPUT™ brushless machines, allowing corded tools to be fully replaced on the jobsite. The MILWAUKEE® range now covers a full spectrum of good, better, and best solutions to meet the demands of every trade person.

BRUSHED MOTOR **M12 M18**

GOOD

Brushed motors sit at the introductory end for trade rated tools. The motors contain carbon brushes which help to provide the power to complete the application. This can generate heat and the brushes need replacing after heavy use, which increases downtime over brushless tools.

REDLINK INTELLIGENCE

REDLITHIUM™-ION

BRUSHLESS MOTOR **M18**

BETTER

Tools containing brushless motors generate more power than brushed tools. They generate less heat and there is no requirement to replace brushes in the motor.

All MILWAUKEE® Brushless tool are engineered to meet the demands of the trades, offering the perfect balance of performance and cost. This means your tool is always ready to perform at maximum capability for any job.

BRUSHLESS MOTOR

REDLINK INTELLIGENCE

REDLITHIUM™-ION

FUEL **M12 FUEL M18 FUEL** **ONE-KEY™**

BEST

Delivering unrivalled performance in a compact form, FUEL™ products feature three MILWAUKEE® exclusive innovations, the POWERSTATE™ Brushless motor, REDLITHIUM™-ION Battery Pack and REDLINK PLUS™ Intelligence Hardware and Software. The combination of these technologies allow the tool to work smarter, only drawing the power required to complete the application. This means FUEL™ tools work harder whilst lasting longer, with additional battery and accessory life.

A selection of tools are also enabled with ONE-KEY™, which allows the user to track, customise, and manage their tools. This means you can set up the tool exactly for the application you are completing to maximise productivity, tool life, and accessory life. You can also track and remotely lock your tool in case of theft.

POWERSTATE™ BRUSHLESS MOTOR

REDLINK PLUS™ INTELLIGENCE

REDLITHIUM™-ION

HIGH OUTPUT™ **REDLITHIUM™-ION BATTERIES LAST LONGER, THINK FASTER AND WORK HARDER*** **HIGH OUTPUT™ REDLITHIUM™-ION BATTERY TECHNOLOGY**

MAXIMUM CAPABILITY

HIGH OUTPUT™ REDLITHIUM™-ION takes our REDLITHIUM™-ION range of batteries to new levels. By employing a new larger high density cell, new high capacity electronics and a new high impact durable pack construction optimised for higher current flows, power can be drawn faster, whilst running cooler. This allows for elevated performance of your existing tools, and sets, in combination with the new breakthrough POWERSTATE™ Brushless Motor and REDLINK PLUS™ Electronics in the high power FUEL products, new standards for cordless system performance replacing corded tools on jobsites.

Improved system performance in application. Recommended battery considering average runtime requirements, average application demand and ergonomics.

* Compared with standard Lithium-Ion competition and previous MILWAUKEE® battery technology.
** Results dependent on voltage, tool, accessory, application and user experience.
*** Over-temperature battery shut-down may occur during prolonged or continuous use.

OUTDOOR POWER EQUIPMENT

GARDEN EQUIPMENT READY FOR ANY CHALLENGE

At MILWAUKEE® we are aware of the challenges you face when working outdoors. We have rapidly grown our range of Outdoor Power Equipment to stand up to the main challenges facing landscaping and maintenance professionals. Here you can see the main challenges and how the MILWAUKEE® tool range overcomes them with our system wide solutions.

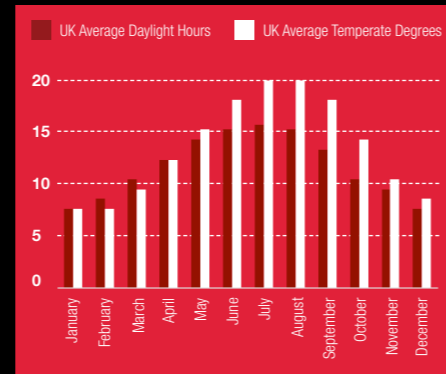

CHALLENGE 1: POLLUTION AND NOISE

CHALLENGE 2: COMPATABILITY

CHALLENGE 3: HARSH CLIMATE

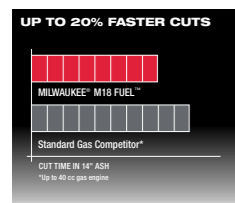

CHALLENGE 1: AIR AND NOISE POLLUTION

Traditional Outdoor Power Equipment is powered by petrol which emits fumes and noise pollution, negatively impacting the environment. Running this equipment for an extended period of time is also hazardous to the user. Not only do MILWAUKEE® offer a quieter solution, our battery technology is better for the user and environment with zero emissions, whilst delivering the power to outperform petrol alternatives.

POWER TO CUT HARDWOODS

FASTER THAN PETROL

UP TO 150 CUTS PER CHARGE

M18 FCHS

“The saw with two batteries is a lot more expensive than a similar petrol motor saw but once you have swallowed that they are great bits of kit. You don’t need ear defenders, no worries about noise complaints early morning, no petrol to carry (which some clients don’t allow) and now exhaust fumes to breathe.”

★★★★★ - Colin H.

DELIVERS THE POWER TO OUTPERFORM ON THE MOST ROBUST CHAINSAW APPLICATIONS VS. PETROL CHAINSAWS

Ease of Use | No Gas Required | Low Noise

CHALLENGE 2: SOLUTIONS ON THE SAME PLATFORM

Working outdoors with limited access to power supplies can be a problem. Switching between power sources and re-fueling tools takes time and impacts on productivity.

All MILWAUKEE® outdoor solutions are compatible with the M18™ battery. If you have multiple outdoor tasks to undertake you can do so with the confidence you can keep on the move with MILWAUKEE®.

CHALLENGE 3: HARSH CLIMATE

Productivity on the jobsite can be affected particularly during the winter months of the year due to less daylight and the cold climate. Here at MILWAUKEE® we provide heated gear and lighting solutions to ensure productivity is maximised throughout the year.

MILWAUKEE® heated gear has been designed to provide comfort and durability in harsh environments. Powered by M12™ battery technology, the hybrid puffer jacket uses carbon fibre heating elements to generate and distribute heat to the chest, pockets and shoulders.

LIGHT THE SITE WITH MILWAUKEE®

Our comprehensive TRUEVIEW™ lighting range covers five categories of jobsite lighting to maximise your productivity in the darkest working environments. See page 22 & 23 for an in depth overview of the range.

TRUEVIEW™

DANGERS WITH TRADITIONAL LIGHTING:

WHY TRUEVIEW™ IS THE SOLUTION

ADAPTS

TRUEVIEW™ offers professionals the ability to bring light directly to their work as well as control the beam intensity and direction for greater productivity on the jobsite.

PERFORMS

Through the use of high quality LEDs, MILWAUKEE® designed optics and REDLITHIUM™-ION battery packs, TRUEVIEW™ lights shine brighter and last longer.

SURVIVES

Reinforced, impact resistant housings and lenses stand up to the challenges of industrial use, and superior temperature management protects LEDs throughout their life.

WATCH THE VIDEO TO SEE WHY TRUEVIEW™ GIVES YOU THE SAFEST, MOST ACCURATE, AND MOST EFFECTIVE LIGHTING SOLUTION FOR ANY JOBSITE

ONE-KEY™

UNLOCKING THE DIGITAL JOBSITE.

BUILD A MORE CONNECTED JOBSITE

With 40 connected tools and counting, MILWAUKEE® is the world leader in smart solutions, dedicated to moving jobs forward.

TRACK. MANAGE. CUSTOMISE.

CONNECTED SOLUTIONS, ADVANCING THE JOB

ONE-KEY™, the first digital platform for tools and equipment, combines a free-to-use inventory program with the industry's smartest tools. ONE-KEY™ provides a new level of control and access to information that's revolutionising the way work gets done.

DOWNLOAD THE FREE ONE-KEY™ APP VIA THE APP STORE, OR GOOGLE PLAY STORE, OR SIMPLY USE YOUR BROWSER

TRACK.

GROWING TRACKING NETWORK

With community Bluetooth® tracking, barcode scanning, and geo-fencing, staying on top of the tools and equipment is easy.

ONE-KEY™ gives complete control and visibility of the inventory across any job, crew and location. Real-time alerts help prevent loss and expensive setbacks.

TICK™ Tool and Equipment Tracker
Versatile Bluetooth®** tracker that can be attached with glue, screws, rivets or straps on anything. It provides location updates (last seen date, time and location) when it comes within a 30 m range of any phone with the ONE-KEY™ App.

MANAGE.

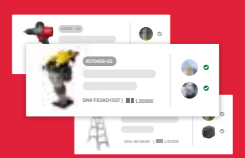

EFFORTLESS INVENTORY MANAGEMENT

ONE-KEY™ inventory management streamlines the inventory process with one digital catalogue that the team can access from anywhere. It gives more insight on how the equipment is working via:

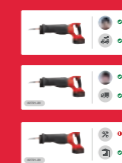

1. INVENTORY DASHBOARD

2. ITEM DETAIL

3. TOOL HISTORY

4. SERVICE REMINDERS

ONE-KEY™ allows you to manage the assets from a computer, tablet, or smartphone. On the jobsite, in the office - accessible inventory for the team wherever they are.

CUSTOMISE.

OUTSTANDING TOOL CUSTOMISATION

ONE-KEY™ allows you to customise the output of the machines to suit the application with the possibility to save and share configurations between tools. Utilising customisation increases tool run time and accessory life, resulting in saving time and money for the owner.

*Users within 30 m range of any phones, using the ONE-KEY™ App to track, manage and customise their fleet.

M12 FUEL ONE-KEY 3/8" DIGITAL TORQUE WRENCH

AVAILABLE FEBRUARY

FEATURES:

- Milwaukee Tool's first digital torque wrench, delivers up to 50% faster installation
- Provides 13.6 - 135.6 Nm of torque range and accuracy within ± 2% for torque critical fasteners
- Faster, more productive torque reporting w/ ONE-KEY™ providing torque data and customisable reports for inspectors or owners
- Adjustable run-down torque to control the tools output torque via the motor to prevent over torque
- Four measurement modes (ft-lb, in-lb, Nm, Kgcm)
- Four notification modes that the tool is reaching, meeting or exceeding the torque target (audible, LED, LCD, and vibratory)
- Six pre-programmed languages including English, Spanish and French
- Durable design to withstand the most demanding jobsite environments

PROVIDES ACCURACY WITHIN 2% FOR TORQUE CRITICAL FASTENERS

Also available as:

NEW M12 ONEFTR12-201C | ART.# 4933464971 (Also available as a 0-version)

M12 FUEL ONE-KEY 1/2" DIGITAL TORQUE WRENCH

- Provides 16.9 - 203.4 Nm of torque range

£ 754.00 EXCL. VAT **£ 904.80** INC. VAT

INCLUDES:

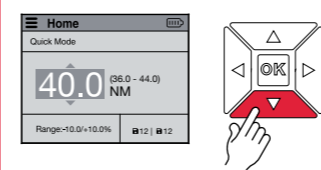

INCLUDES:

HOW THE TOOL WORKS

1. ADJUST TARGET TORQUE

2. PULL TRIGGER TO MAX RPM

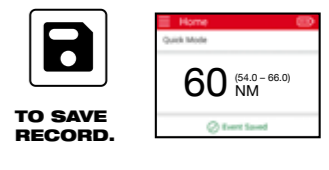

Tool will automatically stop prior to target torque to prevent over torquing

3. FINISH BY HAND TO REACH TARGET TORQUE

4. PRESS

TO SAVE RECORD.

RED LITHIUM™-ION

FOCUS ON **DISRUPTIVE PRODUCTIVITY**

OVER **3100** ACCESSORIES IN THE MILWAUKEE® RANGE

OVER **500** HAND TOOLS IN THE MILWAUKEE® RANGE

WHERE WE WIN

Milwaukee Tool is committed to equipping your tools with accessories that work as hard as they do. Our power tool accessories are built to last long and deliver strong performance every time, with our core trades in mind.

WHATEVER THE TRADE, WHATEVER THE TOOL

PLUMBING	ELECTRICAL	CONSTRUCTION	MAINTENANCE & REPAIR	MECHANICAL & HVAC	UTILITY

WE HAVE THE ACCESSORY

MILWAUKEE'S ATTENTION TO INNOVATION AND USER PRODUCTIVITY SETS OUR HAND TOOLS APART.

Continually testing and developing tools for the most demanding of trades, Milwaukee®'s process of continual evolution is driven by the needs of the jobsite. By working side by side with real users we are able to understand the continually evolving needs and deliver a safer, more productive jobsite.

AX™ CARBIDE TEETH **TORCH™** CARBIDE TEETH

VERDICT:

THE AX™ demolition blade: "Not that expensive actually and these are good for going through nail embedded wood... Well I didnt expect that. Look at that, straight through, no messing!"

THE TORCH™ CARBIDE TEETH: "this is my next test and this is a bit of iron water main... Wow you can't say better than that can you, that's gone straight through! If you were out plumbing you'd be very happy with that."

- ROGER BISBY, SKILL BUILDER

SHOCKWAVE™ IMPACT DUTY

VERDICT:

SHOCKWAVE™ BITS: "Got some oak here, I'm going to see how they perform. They don't slip, don't cam out and very easy to use"

"They are a very good fit, they seem to be very positive in there. The Wear Guard tip means the screw stays in there quite nicely, you can see the MILWAUKEE® fit's in there nice and snug."

- ROGER BISBY, SKILL BUILDER

MX4™

VERDICT:

MX4 SDS DRILL BIT: "It just carries on straight through and will go through the rebar so a very good drill bit to have"

"I'm going to see how many holes I can get out of this MX4 drill bit in very dense kerb stone... I've done 90 holes so far and i wouldn't say it's completely dead that drill bit, I'd carry on using it through brickwork."

- ROGER BISBY, SKILL BUILDER

Milwaukee REDSTICK™

VERDICT:

REDSTICK™ BACKBONE™ LEVEL: "We stuck it up against the industry leaders, easily as good and if not better. The big feature about these levels that everyone talks about is how strong they are. If you have got a level as tough as it comes, its got a much better chance of surviving and giving you good life.

Being able to see that bubble without having to squint or put my glasses on is tremendously helpful."

- ROGER BISBY, SKILL BUILDER

STUD™

VERDICT:

STUD™ TAPE MEASURE: "It's one of several tape measures in the range. The thing that they all share is that fantastic abrasion resistance, to wear those numbers they really are very resistant.

A tough tape measure that takes a lot of punishment. This one is built to last!

- ROGER BISBY, SKILL BUILDER
